

# *Digital Currency Daily*

A Blockchain Powered  
Community Platform

---

## *INTRODUCTION*

---

The Digital Currency Daily ecosystem aims to tackle the problem of user interaction with cryptocurrency exchanging and utilisation. As a result, the platform focuses on locating up-to-date top sourced blockchain news, sharing access to market directories provided by exchanges to track historical data on trending cryptocurrencies, and a library of self serve options that ensure every member is learning and sharing as they learn, equipped with an array of educational lessons and self-help demonstrations created and shared by the community. The platform provides a self service avenue for new blockchain projects to share what their working on with others .Additionally, the platform shows users how crypto-currencies can be utilized in daily activities such as reviews by utilizing a token for individual functions within the community.

The platform is designed to lower the threshold of entry for new users and reduce the amount of knowledge required in the field of accessing cryptocurrencies, digital assets and adapting to blockchain technologies in everyday life as a consumer category of virtual, fungible digital goods.

This token may also be utilized as a reward based system for engaging in different aspects of the platform's functionality for testing or experimentation purposes. An example of this would be one individual providing a tip to another. The platform allows you to start using and learn about blockchain technology after a few simple steps, regardless of the availability to cryptocurrency, the level of understanding towards crypto-trading and utilization of such digital assets or blockchain technology in your area, as it is available from anywhere in the world.

This paper discusses the current status and future plans of the Digital Currency Daily ecosystem. It aims to demonstrate how we are using our basic knowledge to make cryptocurrency and blockchain technology easy and accessible for everyone of all ages, across the globe.

---

## *DISCLAIMER*

---

- The Digital Currency Daily team and it's users of the platform are aware of the possible risks associated with utilizing virtual currencies, crypto-trading and cryptocurrency in general. These risks may include a total loss of any funds or purchases at any time. We do not endorse the use of, or encourage trading cryptocurrency whatsoever. All users access and execute transactions with a cryptocurrency doing so at their own risk, and only when these conditions are met, should they utilize such services. No information should be taken directly as financial advice and should only be utilised for educational purposes.
- Digital Currency Daily does not endorse the purchase of such digital technologies, however Digital Currency Daily website may share information to users which they can utilize with extreme caution at their own discretion. It is highly recommended to do your own research and never put faith in any independent opinions.
- Digital Currency Daily Tokens are utilized for the sole purpose as a utility for participation in Digital Currency Daily services, and Digital Currency Daily Tokens hold no rights or ownership of Digital Currency Daily or its social network. Digital Currency Daily Tokens are used on the platform as a functional utility option only that enables premium functionality and Digital Currency Daily may not be restricted in methods of dispersing tokens to users, such as airdrops, absent any conditions. Digital Currency Daily tokens must be known to hold no inherent value outside of the Digital Currency Daily ecosystem. There sole and only purpose is to be used for enabling functionality on the website directly.

- Users that purchase or use Digital Currency Daily Tokens may withdraw or remove such tokens from their wallet TRON account at any time and do as they wish with such tokens by paying a small transactional fee to broadcast a transaction on the live blockchain network. Have it be known, these tokens hold no inherent value outside this social platform, with no general use and such tokens are only created or utilized as fungible options for utilising premium services within the social network.

- No promises of future performance, or value, is or will be made with respect to Digital Currency Daily Tokens , including no guarantee of inherent value in the future, and no guarantee that Digital Currency Daily Tokens will hold any particular value outside of the platform. Only once participants fully understand and accept the nature of the Digital Currency Daily Tokens sole functionality on the social network, and the possible risks associated with purchasing any cryptocurrency, should they begin to purchase such cryptocurrencies.

- Digital Currency Daily is responsive and will work with any regulators as required, moving forward. As of the white paper publication date, Digital Currency Daily tokens have no known or developed potential uses outside of the Digital Currency Daily Social Network and may or may not become a tradeable utility on peer to peer exchanging services solely for the purpose of allowing individuals to trade such fungible tokens amongst themselves.

- Any form of participation in purchasing Digital Currency Daily Tokens carries considerable risk that should be recognized and may involve risks that could lead to a loss of all or a substantial portion of such an investment or money spent. Do not participate in purchasing Digital Currency Daily Tokens unless you are prepared to lose the amount allocated to purchasing Digital Currency Daily Tokens. Digital Currency Daily will offer no refunds, reimbursement or platform credit for lost or mishandled tokens.

***This whitepaper is an explanation document only and is not an offer to sell, nor solicitation of any offer to buy any investment or financial instrument in any jurisdiction and should not be treated or relied upon as one.***

***This whitepaper is for informational purposes only outlining the business plans of the infrastructure and functionality within. Written authorization is required for distribution of any or all parts contained herein.***

---

- Digital Currency Daily Token Holder's assume risk when participating in trading activities and such activities have inherent risks. Unforeseen problems could result in the complete loss of a Digital Currency Daily token holder's funds or Digital Currency Daily token value on a P2P exchanging service, should it be listed in the future. This whitepaper is for information purposes only and is subject to change.

- Digital Currency Daily website owners shall have no liability for damages of any kind arising from the use, reference to or reliance on the contents of this whitepaper, or on its website, even if advised of the possibility of such damages.

---

This whitepaper includes references to third party data and industry publications. Digital Currency Daily believes that this industry data is detailed and that its estimates and assumptions are reasonable and factual. Third party sources generally state the information contained therein has been obtained from sources believed to be reliable.

Nevertheless, the Digital Currency Daily team is confident in their belief that they have taken all commercially reasonable steps to ensure that logistics are properly in compliance with current regulations.

---

***This whitepaper contains forward-looking statements and information that relate to Digital Currency Daily current expectations and views of future events.***

---

In addition to statements relating to the matters set out here, this whitepaper contains forward-looking statements related to Digital Currency Daily proposed operating model. The model speaks to its objectives only, and is not a forecast, projection or prediction of assumed future results of operations.

---

Forward-looking statements are based on certain assumptions and analysis made by Digital Currency Daily in light of its experience and perception of historical trends, current conditions and expected future developments and other factors it believes are appropriate, and are subject to risks and uncertainties.

---

Although the information shared on the website is based upon what Digital Currency Daily believes to be reasonable and accurate data, given such risks, prospective participants of the social network should not place undue reliance on these information packets and should refer research to other sources and complete their own due diligence when utilizing cryptocurrencies or sharing information on cryptocurrencies.

---

## *THE DEVELOPMENTAL FRAMEWORK*

---

For the first time in history, an immutable, decentralized ledger exists on a global scale, eliminating the need for middlemen, complex auditing systems, and long settlement times. Open (permissionless) protocols mean settlements no longer depend on connecting fragmented legacy systems. Additionally, because the ledger is append-only (existing records are immutable), it provides a high degree of accountability, with blockchain timestamping built-in. The most commonly used methods for ensuring consensus on a blockchain are Proof of Work and Proof of Stake. They ensure truthful consensus by making the costs of manipulating the network data far greater than the profit to be made from such deceitful transactions.

Digital Currency Daily is backed by the latest TRON Blockchain Technology that executes functions via smart-contract calling. Without the need for human interference or execution, you can assure all transactions within the ecosystem will be precisely executed by artificial intelligence with guaranteed results.

---

## summary

---

Digital Currency Daily is the result of having frustration with traditional learning and sharing methods, the difficulty of accessing blockchain information seamlessly in one location, while holding a desire to contribute to the overall growth of blockchain technology and how users access informative content, with a system that anyone can participate in and benefit from individually, at their own pace .

It all began when I decided to start using and getting involved in cryptocurrencies in early 2011. However, the further I immersed myself in blockchain technology, the more lost and confused I initially became, due to lack of access to information, guidance and lack of avenues to learn at an economical rate. The barriers for entry seemed huge and the odds were stacked in the opposing favor.

After years of learning as the technology grew, understanding the struggles attached to explaining and understanding the technology with newcomers and with some global networking, I gained what seemed like unparalleled experience, understanding and expertise of the technology and how it can be adapted in real world situations. I came to the realisation of the potential for a platform such as Digital Currency Daily Social Network. With gaining experience in user growth/demand, concepting developments and a passion to expand the ease of access to information, I had a vision to develop an automated user oriented and developed cryptocurrency-focused social network & information centre, like no other.

This platform would operate so that it would be available to anyone at anytime of any expertise level. The platform should include everything from the ability to share and learn from others in a social medium similar to *Facebook*, possibly integrated with a live chat system connecting everyone seamlessly, a news section to keep up to date on important factors, video tutorials and how-to's for easy learning, consulting options with verified peers so that everyone can have their questions answered promptly with weighted opinions, demonstrating use-case of the technology via creative gamified systems that are easy to understand, all being tokenized to a blockchain for full transparency and decentralization of the services and functionality offered, increasing the rate of which individuals can learn and utilize blockchain technology hands on.

To date - the Digital Currency Daily pilot project has a thriving community, boosted with over 50,000 members around the globe. We have been in pilot mode facilitating assistance to newcomers of blockchain technology testing the market demand. During my market research and studies, I have discovered a growing need for an online infrastructure as outlined in this white paper.

As an individual, I am passionate and excited – not only about making the Digital Currency Daily Social Network a success – but also about achieving success for others, by understanding how to utilize cryptocurrencies and blockchain technologies in their day to day lives, and how the world begins to rapidly learn in regards to digital currencies and distributed public ledgers. With the Digital Currency Daily social network, I will have the ability to expedite my goals of expanding blockchain understanding and general public use of such technologies.

Our group of developers are dedicated to working collectively to deliver the list of great features, enhancements and functionalities outlined in our road maps. Digital Currency Daily has a rapidly growing network of collaborators who are eager to contribute and become part of the chain.

Getting this far has been an amazing journey and reaching our first goal has been a big milestone. I would like to take this opportunity to thank all of our passionate and devoted community, and public advisors for their help and guidance along the way.

Together, we're going to change the world.

---

## *PROBLEM*

---

In late 2017, a sharp surge of new crypto enthusiasts started bringing exposure to altcoins and started buying everything in sight. That makes prices of some altcoins more volatile than before, while constantly growing Bitcoin rates keep increasing traders' stress levels costing individuals more money to purchase less digital values. With new Altcoins coming on the rise, Bitcoin is losing its share in total crypto market capitalisation, despite its increasing value.

Market capitalizations of some altcoins have already exceeded hundreds of thousands of dollars, and that's only the beginning. It's impossible to factor in all the trends, events and sub-reddits that shape the markets each day. Making a good trade in cryptocurrency can be difficult even for experienced traders, let alone newcomers. New traders don't recognise market trends occurring and can't make good trading decisions based on low-experience, which they haven't been provided a chance to see differently. For people who just have started to trade cryptocurrencies, the "what to buy", "where to go" and "what project to trust" problem is now more important than ever.

Digital Currency Daily has a goal to provide the most revolutionary cryptocurrency social network platform that the world and blockchain has ever seen. One that is automatic, intelligent, self-serving to the fullest extent, quick and easy to use while remaining accessible for all customers, regardless of their background, cryptocurrency experience or knowledge.

Users can begin to learn the basics of cryptocurrency by accessing learning material created by the community hosted on blockchain. Sharing learning material created and shared by peers, can increase one's ability to learn. Digital Currency Daily connects inexperienced individuals to the some of the information they need to advance their decision making. Once a TRON wallet account is created and loaded with DCD tokens, users gain access to a wide range of opportunities - whether through sharing and reviewing services, creating and receiving rewards for sharing learning content, or accessing vital news from top sources.

These options require no investing to trading requirements, as they arent applicable, no previous crypto-currency experience and no in-depth knowledge of cryptocurrencies. Digital Currency Daily is suitable for anyone who wants to learn and get involved in the cryptocurrency market but does not have the relevant skills or the time to research scattered market information all day long.

---

## *WHAT IS Digital Currency Daily?*

---

Digital Currency Daily is an user-friendly education oriented social media platform built with blockchain technology. Utilizing the Digital Currency Daily knowledge base in day to day activity should help increase the way we share and access cryptocurrency information among our peers and most importantly, it saves you from having to navigate a magnitude of online ecosystems to gather information on blockchain technology and news.

Newcomers of blockchain technology can begin to understand and execute transactions based on blockchain hands on with our native TRON based TRC-20 token, Digital Currency. This allows complete beginners options to learn with confidence and ease by accessing, and utilizing new technologies from day one with no financial risks.

Inside the Digital Currency Daily ecosystem, community members will be able to share cryptocurrency information,

collaborate insight & reviews on new blockchain technologies, and ask questions amongst their peers while learning how to utilize these technologies in their everyday lives.

Users will also be able to “like”, “comment”, “share” and “rate” content on the platform for a weighted opinion on the validity of shared data. This will allow for unbiased decision making and a truly engaged community system.

---

## *WHAT'S DIFFERENT ABOUT Digital Currency Daily?*

---

### Digital Currency Daily OFFERS THE FOLLOWING;

- A blockchain social network that allows users to learn, discuss and connect with other individuals utilizing the technologies.
- Crash course user designed training videos on how to utilize and understand crypto based services, set-up tutorials, and detailed descriptions of what is actually occurring and how to navigate these services.
  - Direct consulting access with peers on a variety of topics in our chat group.
  - Market pricing directory enables users to track values of selected crypto currencies.
  - An integrated blockchain fungible asset for enabling premium functionality that allows users to get comfortable with technology without engaging in unforeseen inherent risks affiliated with utilizing blockchain technology.
  - A public forum dedicated to collaborating and developing group decision making hosted on a public blockchain ledger.

---

## *HOW DO YOU ACCESS Digital Currency Daily?\_\_*

---

**Domain** - You may access Digital Currency Daily Social Network directly through our domain [www.digitalcurrencydaily.com](http://www.digitalcurrencydaily.com) . We've created a fast and simple sign-up process for you. Because Digital Currency Daily never holds any actual fiat currency or user information, we don't need to perform any lengthy identification checks on users, so customers can be up and running in a matter of minutes to access information within the website. Simply create your TRON wallet, sign up for an airdrop to begin using premium services on the network or deposit tokens to your personal TRON wallet to gain access to our premium Digital Currency Daily services.

---

The Digital Currency Daily ecosystem has its own form of utility asset token called Digital Currency (DCD). Every time a user shares content or enables a premium service on the social network will require the use of Digital Currency, rather than fiat or alternative currencies. We do not charge fees or incur revenue from these functionalities, all tokens used for premium features are burned from the total token supply. These tokens can be acquired at no cost in a variety of ways within the community or by converting TRX instantly.

---

---

## *HOW DO YOU USE Digital Currency, and Digital Currency Daily?*

---

Once you've funded your wallet with Digital Currency, you can begin utilizing the key premium functions of the platform. Though premium services and tokens are not required to utilize the platform in its origin, members are encouraged to have tokens if they wish to share information on the website, it helps reduce spamming from occurring on our forums.

From time to time, tokens may be given for free to community members for participating in events or user activity as a reward. These tokens will also be offered for free to all users in small increments to allow basic functionality of the platform, if needed.

*With Digital Currency*, you will gain access to a variety of premium services which includes listing and reviewing crypto based services and sharing tutorials on the listed services.

*In the news sector of the platform*, users will find an array of information based articles and updates occurring within different industries of blockchain. These sections are updated instantly via widgets and provided for free by top sourced news providers.

*Navigate to the Access Crypto section of the platform*, and you will discover a library of information on many crypto based services, such as a description and reviews provided by other viewers. Choose your ideal categories to find when you're looking for easier. If you wish to submit personal content to the platform, you can do so by burning DCD tokens anytime of day and it will become instantly visible for all viewers.

*The Coin Ranking* of the platform is accessible to all users. This section allows users to study market trends on their own time and evaluate pricings throughout an array of cryptocurrencies. The services within this page are provided in partnership with CoinRanking.com, the page is a complete iframing of coinranking.com and displays all the services provided by them. Users are free to explore data on alternative cryptocurrencies, access introductory websites for such crypto-asset communities, review verified social profiles for connecting, and gain access to conversion calculators for ensuring your exchange values are accurate and much more.
